Education

Government College of Engineering, Amravati — Amravati, India
B.Tech in Computer Science and Engineering [CGPA: 8.65(Upto 6th Sem)] — 2022 – Present

Seth Bansidhar Jr Science College ,Telhara — Telhara, India
12th, HSC [PCMB : 88%] — 2020 – 2022

Internship

AI/ML Intern, DoxPro Robotics — Amravati, India (06/2025 – 08/2025)

- Developed and fine-tuned machine learning models using Python and scikit-learn, working specifically on classification and regression algorithms and developed an automatic wage calculator and attendance system.

Projects

Online Voting System | Spring Boot, HTML, CSS, React.js, MySQL , (Working on Face Detection using Open CV).

- Developed a secure online voting platform using Spring Boot for backend and React for frontend, enabling smooth and scalable user interactions.
- Implemented RESTful APIs for efficient data flow between frontend and backend, ensuring real-time vote processing and result updates.
- Designed a user-friendly UI with responsive design for easy navigation across devices and accessibility for all users.

Internal Incident Management System | Spring Boot, React.js, MySQL, Postman,Logistic Regression

- Built a system to log, track, and manage incidents across applications, with a React frontend and Spring Boot backend supporting full incident lifecycle from creation to closure.
- Implemented **role-based login** (Admin, Manager, Agent, Viewer) using Spring Security, giving each role specific access and actions within the portal.
- Developed RESTful APIs for incident lifecycle management — create, assign, escalate, resolve, and close — with status updates reflected in real-time on the dashboard.
- Integrated a **ML-based priority prediction model** that auto-assigns incident severity (Low, Medium, High, Critical) based on incident description and affected system, reducing manual triage effort.
- Built an **SLA-based escalation workflow** that automatically escalates unresolved incidents past their deadline and notifies the responsible manager.
- Performed API testing using Postman with automated test collections covering role-based access, lifecycle transitions, and edge cases (50+ test cases)

Position of Responsibility

CSE Departmental Convenor — Oct 2024 – Present
IE Students Chapter, GCOEA

- Organized multiple webinars on emerging technologies, conducted various competitions.
- Enhanced my leadership skills while leading a team of 8 members.

Co-coordinator of GLOBAL ALUMNI MEET 2024 — Nov 2024 – Dec 2024
Alumni Association, GCOEA

- Co-led the end-to-end planning and execution of the college Alumni Meet as the overall Event Co-coordinator, managing a cross-functional team, coordinating logistics, budgeting, vendor negotiations, and on-site operations for a successful event with over 300 attendees.

Technical Skills

- **Languages/Frameworks:** **Java**, Spring Boot ,Hibernate,Microservices, REST,HTML,CSS ,CUDA, HPC, Python(Begineer).
- **Coursework:** Object Oriented Programming , Data Structures and Algorithms, DBMS.
- **AI Tools:** Warp, Claude,NoteBookLLM,Napkin.ai,n8n(Begineer).
- **Python Library:** scikit-learn, Matplotlib, pandas, NumPy.

- **Other :** MySQL ,Linux,Docker,CI-CD pipeline, Git , GitHub , Backend , Prompt Engineering.
- **Coding Profiles :** Leetcode(150+), CodeChef .

Extra Curricular Activities

- Secretary of Badminton at College Sports Event (Kalpana Chawla Trophy 2024).
- General Secretary of Hostel Affairs at College(New Boys Hostel ,2024).
- Participated in the Devothon Hackathon at Sipna College of Engineering, Amravati.
